-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Paper No:20100205

Application No: 10/579824

Filing Date: May 17,2006

1. The Abstract of the Disclosure is objected to because line 3, "comprising" , "lines 3,7 "means" must be deleted. The abstract also appears to be a duplicate of claim 1. Correction is required. See M.P.E.P. § 608.01(b).

Applicant is reminded of the proper language and format of an Abstract of the Disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 250 words. It is important that the abstract not exceed 250 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said", should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the

Art Unit: 2837

applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-37 are rejected under 35 U.S.C. 102(e) as being anticipated by Friedli et al (7319966).

1,5,17,19,23,34-37) Friedli et al teaches in figure 1, an elevator communication system.

A personal profile 15 and elevator statistics/data 18 are provided to a server 11 for display 17 to a specific user.

2,3,20,21) Data lines to server 11.

4,11,22) Internet 16 (examiner sees the elements 12,18,21-23 as local but separate from server 11.

6,24) Col. 1, line 60, states information is momentary.

7,25-27) Col. 4, line 27 states database (not shown) is available.

8,9,10,28) Col. 4, line 26, states that the data can be accessed via the internet.

12) Data 21,23 and operating/stats 18.

13-16,29-33) Camera 21 is stated as for security purposes. Col. 3, lines 49-51.. Line 44, states fault messages.

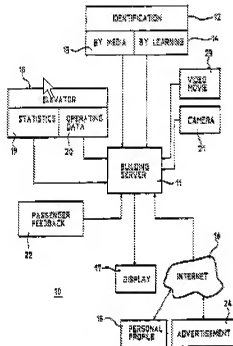

18,35) Col. 3, lines 19-40 state elevator information.

4. Applicant's arguments filed 12-30-09 have been fully considered but they are not persuasive.

Claim 1 states a means for obtaining a first information regarding a person using the transportation device and second information regarding the status of the transportation device. An association means creates an association between the information. No limitations to a system for storing and searching surveillance footage appears present.

Applicant states that no association means is present.

As stated above figure 1 illustrates an elevator communication system,

The abstract states a server 11 " stores user personal information profiles and information to be communicated ...communicates a portion of the stored information based upon the associated profile...connected to various different sources of data to collect..."

Col. 2, lines 36-67 states that a ID unit 12 determines a user which also registers (during ID) a profile (from profile unit 15) of the user which is communicated to server 11.

Concurrently, an elevator unit 18 with operating data 20 and statistics 19 provide elevator specific information (col. 3, lines 19-48) to server 11.

A display unit 17 and touchscreen 18 are then presented with user-specific data, See col. 4, lines 1-4.

Art Unit: 2837

As stated above, the abstract clearly states that an association is present.

No other argument appear present.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

A shortened statutory period for response to this action is set to expire 3 months from the date of this letter.

Failure to respond within the period for response will cause the application to become abandoned. 35 U.S.C. 133
